

## HOW TO MEASURE?

Measure directly on your body contour (in centimeters). Round the area to be measured with a measuring tape. Neither loose or tight. Once you have all the measurements, find the corresponding size in the chart below. In case you doubt between two sizes, we suggest you to choose the larger one.

**\*HEIGHT:** measure the height from head to toe.

**1**  
**CHEST CONTOUR:**  
Extend your arms and round chest area just underneath and measure it.

**2**  
**WAIST CONTOUR:**  
Measure waist contour underneath underneath the belly button, rounding this area.

**3**  
**HIP CONTOUR:**  
Measure by the widest part of the hip, rounding this area.

**4**  
**ARM LENGTH:**  
Put the arm semi-flexed and measure from shoulder to wrist, skirting the elbow.

**5**  
**THIGH CONTOUR:**  
Measure the part of the thigh below the crotch, rounding this area.

**6**  
**CROTCH LENGTH:**  
Spread your legs slightly and measure from the inside of the legs, from the crotch to the ankle.
